bringing your ideas to life

NCFE Level Two - Animation

Delivered by our professional animators, this course offers :

- Accredited qualification worth the equivalent of two GCSE's at Grade B.
- Flexible guided learning across schools, colleges and City Learning Centres.
- Fully CRB checked professional industry animators

Learn all about animation

Helping to mould you into an animation expert through:

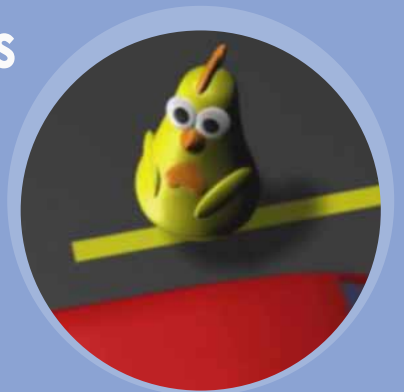

- Studying the history of animation and its pioneers
- Learning about different job roles in the industry today

Research and explore ideas and techniques

Hands on guidance helping you to understand animation and design techniques used across :

- Design processes and brainstorming
- Storyboarding and developing a narrative

Create an animated sequence

Using the skills gained through design, you will develop to:

- Understand the key principals and techniques used in animation
- Learn industry animation software
- Create a short animated sequence for online distribution
